File Code: EXO-COMM-■■-992
Surveillance Division: ASTRI Internal Monitoring Unit
Decryption Level: OMEGA-BLACK

WARNING: The following transcripts are partially redacted. Unauthorized disclosure is punishable under Protocol ■■-17.

SCENARIO 1 – 'Fake Friend Protocol'

AS-Shzdevss: You see? He trusts you. That's the weak point.

AS-Lomba: I know. He thinks I'm loyal. ■■■■■■■■.

AS-Shzdevss: Keep the act. Fake support. Then redirect everything.

AS-Lomba: And when he notices?

AS-Shzdevss: He won't. By then Grim will already look like the problem.

AS-Lomba: Grim always talks too much anyway.

AS-Shzdevss: Exactly. We just amplify it. Subtle manipulation. No traces.

SCENARIO 2 – Target: Grim

AS-Lomba: Grim thinks he's strategic. It's almost funny.

AS-Shzdevss: Strategic? He's improvising chaos.

AS-Lomba: He called me unstable.

AS-Shzdevss: Projection. Classic move. ■■■■■■■■ insecurity detected.

AS-Lomba: Should we confront him?

AS-Shzdevss: No. Let him sink publicly. We stay calm. He explodes.

AS-Lomba: And if he accuses us?

AS-Shzdevss: We deny. Always deny. Make him look paranoid.

SCENARIO 3 – Escalation Simulation

AS-Shzdevss: Hypothetical. Grim discovers everything.

AS-Lomba: Then?

AS-Shzdevss: We flip it. Say he manipulated first. Reverse narrative.

AS-Lomba: And Wildevss?

AS-Shzdevss: ██████████ Classified variable.

AS-Lomba: You enjoy this, don't you?

AS-Shzdevvss: It's not enjoyment. It's control.

AS-Lomba: Worst case scenario?

AS-Shzdevvss: Then we burn the bridge. No hesitation.
